4. XMLs folder consists of two more folders for different source of bricks

5. This long list inside one of these folders contains part lists for each attachment. Next to each XML file there is an image with the same name, so that you understand what exactly this XML contains.

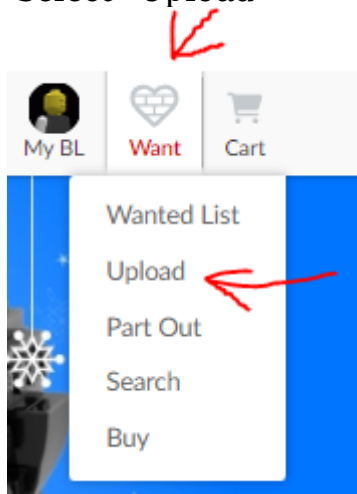

For example, you want to build classic ar-15, angled foregrip, cqb stock and drum magazine. With LEGO colors.

These are the files you need:

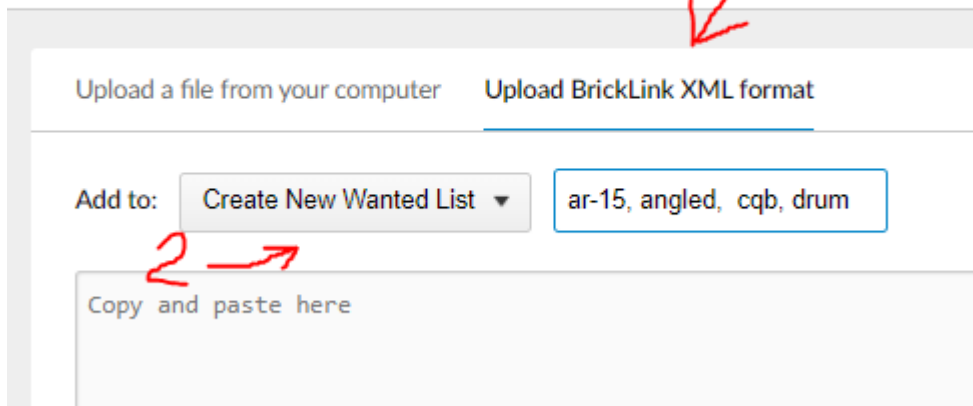

6. Visit [Bricklink.com](https://www.bricklink.com), then log in / Register
